

Dear Parents and Carers

Misson Primary School are extremely excited to announce our new development project. We are about to embark on one of the schools biggest projects, an Outside Educational Classroom environment. A lot of research has gone into planning and preparing this venture to date and it is something we are all involved in and passionate about. Collectively we are hoping you will be too.

The new outside area will be situated at the far end of the KS1 playground, providing easy access to KS2 as well as KS1. It will be something that every class will be able to make use of, as well as providing the perfect environment for some new, up and coming extra-curricular clubs. The new area will provide opportunities for den making, bug hunting and our very own construction area to name a few, as well as a reading area and indoor / outdoor learning sector, an extension of their own classrooms.

In preparation for the start of this enterprise we are looking to you for any contributions or skills we can use and utilise. I have added a comprehensive list of items we are currently looking for at the bottom of this letter. If you are able to help in any way, please contact me in the school office on 01302 710580 or via e-mail on office@misson.notts.sch.uk. Alternatively you can contact your class teacher on Dojo or Tapestry.

May I thank you in anticipation for your help in making this an exciting, successful enterprise.

Kind regards

Mrs Mitchell

Office Manager
